| Part Number | 95301-100 |
| Number of Reactions | 100 reactions |
| Reaction Size | 20 µL |
| Storage Temperature | 2°C - 25°C |
| Lot Number | D0801031 |
| Expiration Date | 17JUN2025 |

Product Description:

eQo 1-step ToughMix is a lyophilized reagent system for reverse transcription quantitative PCR (RT-qPCR) of RNA templates using hybridization probe detection chemistries such as TaqMan® 5'-hydrolysis probes on systems that do not require a passive reference dye. It is supplied with a proprietary rehydration buffer that produces a stabilized 4X concentrated master mix that contains a thermolabile UDG for amplicon carryover elimination, an enhanced warm-start reverse transcriptase (RT) and all other required components for 1-step RT-qPCR except RNA template and primer/probe(s). This robust 1-step ToughMix has been processed and dried into small, stable beads, packaged into tubes, and sealed in pouches with desiccant packets to provide maximal stability for room-temperature shipping and storage. Upon receipt the sealed packets should be stored refrigerated at 2 – 8°C, or at ambient temperature ($\leq 25^{\circ}\text{C}$). Once a sealed packet is opened, the dried beads must be immediately dissolved using the provided rehydration buffer. This buffer contains components that improve detection of GC-rich targets and additional stabilizers that allow for up to 1 year storage at -20°C of the 4X concentrated liquid ToughMix).

For Research Use Only *Not for use in diagnostic procedures*

Quality Control Analysis and Specifications

eQo 1-Step ToughMix Functional Assay: Must have detection of CDKN1B from 100 pg to 100,000 pg of UHR total RNA. Must have detection of β actin, GAPDH, and TUBA from 1 pg to 100,000 pg of UHR total RNA. Cq standard curve analysis for each targeted sequence must have a coefficient of determination (R^2) ≥ 0.990 with a slope between -3.20 and -3.65.

Limitations of Use

QuantaBio, UltraPlex, qScript, GelTrack, ToughMix, PerfeCta, and FastMix are registered trademarks of QuantaBio, LLC. Applied Biosystems, StepOne, StepOnePlus and ROX are trademarks of Thermo Fisher Scientific and or its subsidiaries. Please contact QuantaBio for more information.

This product was developed, manufactured, and sold for *in vitro* use only. The product is not suitable for administration to humans or animals. SDS sheets relevant to this product are available upon request.
